Wonderful Root System

TERMS

Prices net and subject to change without notice.

All goods travel at purchaser's risk and expense.

Prices are F. O. B. Holland, Mich.

Packing and Cases will be charged at cost price.

We allow 5% discount for cash with order, 2% 10 days or net 30 days after date of invoice.

All offers subject to goods being unsold upon receipt of order.

Orders from unknown parties must be accompanied with cash or satisfactory reference.

All claims for damage occurring in transit should be made to the railroad or Express Company delivering the goods. If boxes are broken or any other visible damage done, it should be noted on the receipt to be used in filing claim.

FOR CANADA

Prices quoted in this catalogue are in American Currency. Canadian customers should remit by draft on New York or Postal Money Order payable in American dollars.

OUR GUARANTEE (Read Carefully)

All plants offered in this list are grown in our own nurseries, and handled by experienced help, so that such stock as grown from cuttings or divisions, we know to be true to name and are glad to guarantee it as such. Should it by mistake prove otherwise, we shall gladly refund, upon proper proof, the original amount paid for the stock, or make replacement of the original order. Plants grown from seeds are from seed stocks obtained from the most reliable growers. Seeds, however, do not always come true to color of some kinds of plants, so that, while we are always interested in the results obtained from our stock and glad to meet our customers in possible disappointments, we can not be held responsible.

We do not divide our plants before shipping but send the entire plants as dug out of the field. Dividing is only done in rare cases and then only because it is necessary to get the best results.

If after receiving, you are not satisfied with the quality of our stock, you will afford us a favor by letting us know and we will replace anything you mention without charge or further question.

WELLER'S PERENNIALS

"With That Wonderful Root-System"

A Slogan which carries the Goodwill of Hundreds of our Customers

INTRODUCTION

Space is too limited to say everything about Perennials we would like to tell, though we are so enthusiastic about their possibilities in every branch of Floriculture and Horticulture that we could probably write books about them. As we advance, however, we aim to render our customers such service and furnish them with such information as will enable them to take up Perennials commercially and make them a profitable and important part of their business.

OUR NURSERIES

Our nurseries are located in Holland, Michigan, consisting of sixty acres of the finest sandy loam soil and with enough variety to adapt itself to all classes of plants. The growing is completely supervised by five members of our own family, so that we have the strictest order among our employees and have a great advantage over many nurseries, continually confronted with the scarcity of experienced help.

OUR PACKING

Our packing as well as our digging is supervised by two members of our family, one in the grading room and the other in the packing room. The interest of our customers is, therefore, continually at heart both in the grading of the stock and in packing for a safe transportation. All orders are counted and checked three times before boarding the train, first in the field, second in the grading room and third when packed, so that mistakes are hardly possible.

OUR CATALOGUES

Our catalogues serve two purposes: one to offer our goods for sale and the other to render our customers service in whichever way possible, with all kinds of information valuable to every branch of their business. You will, therefore, find it a great convenience to save it and keep it in a handy place for easy and immediate reference at any time.

FLORISTS

The necessity of Florists having "A Patch of Perennials for Cutflowers" has already become vital. This catalogue will furnish you with all information necessary to make such a planting. If our personal advice is required, ask us for it.

NURSERYMEN

Neither can nurserymen ignore the Perennials; the public wants them. Our catalogue is the most complete Perennial catalogue out, and is compiled in a manner that will enable the Nurseryman to give his customers reliable information about Perennials and their habits. We grow large quantities of the most popular kinds, so that we are always prepared for large orders and glad to make special quotations in such cases.

LANDSCAPE GARDENERS

We are probably in position to serve Landscape Gardeners better than most growers of Perennials. Our list of varieties is complete, our stock will flower in abundance the first season, and our catalogue is the most descriptive.

SEEDSMEN AND CATALOGUE HOUSES

Most seed catalogues contain a page or two or more, offering a popular line of Perennials. We are prepared to make up such pages for you and give you such information as will enable you to carry a profitable line. We are also prepared to ship direct to your customers under your tags, which in most cases is the best way to handle Perennials.

Cordially yours,

WELLER NURSERIES COMPANY, Inc.

Holland, Michigan.

Weller's
Perennials
with that
Wonderful Root System

Weller's Herbaceous Perennials

For Fall and Spring Delivery

Why You will Find Weller's Perennials the Best and Most Satisfactory

Because we make a specialty of growing them to perfection, and make it our point to give you SERVICE, QUALITY, AND VALUE. Our plants make REAL ROOTS, and what is more important to a Perennial than a GOOD ROOT SYSTEM?

All plants offered in this list are strong, field-grown, the only Perennials that give satisfaction. They are far better than pot-grown plants, as they are more vigorous and healthy, and sure to flower in abundance the first season. We want your business, and to keep it, for we are growing more every year. You will not appreciate our stock and good service until you have convinced yourself by a trial order.

GENERAL LIST

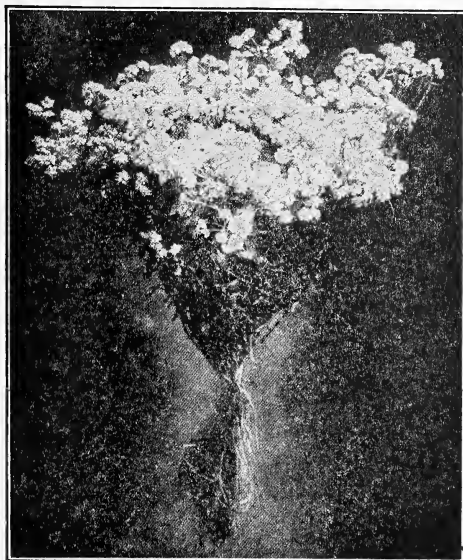

Those marked * are especially suited for cutting; those marked with † are best suited for rockeries.

In description the flowering period is indicated by the name of the months as May-June, etc.

All Perennials two years old unless otherwise indicated.

	per doz.	per 100
ACHILLEA (Millfoil or Yarrow)		
*FILIPENDULA. Flat heads of brilliant yellow flowers, finely cut foliage. Blooming all summer. 3 ft.	1.20	8.00
*MILLEFOLIUM ROSEUM. Heads of soft rose flowers. 1½-2 ft. June-Aug.	1.20	8.00
*PTARMICA BOULE DE NEIGE. Double white flowers of compact habit. Ideal for edging. 2 ft. June-Sept.	1.20	8.00
*PTARMICA MONT BLANC. (We do not guarantee this name). A variety in every manner and form the same as The Pearl, but size of bloom larger, and better and stronger stems. Darker green foliage. A few plants were bought from a Florist who imported it years ago from France.	2.00	15.00
*PTARMICA FL. PL. THE PEARL. For cutting this is the most useful plant of Perennials. It grows well and flowers in great abundance all summer. The flowers are a pure white, perfectly double and as large as a one penny piece. Our stock is one-hundred percent true.	1.20	8.00
ADAM'S NEEDLE. (See Yucca).		
AGERATUM (HARDY). (See Eupatorium Coelestium).		
AGROSTEMMA (Rose Campion).		
CORONARIA. Glowing crimson flowers, making a striking contrast with the silvery foliage. 2 ft. June-July.	1.20	8.00
ANCHUSA.		
ITALICA, DROPMORE VARIETY. A beautiful plant for the border in woodlands, producing spikes of gentian blue flowers. 4-5 ft. June.	1.20	8.00
ANTHEMIS (Hardy Marguerite).		
*TINCTORIA KELWAYI. Beautiful daisy-like flowers, of clear yellow; very useful for cutting. 2 ft. June-Oct.	1.20	8.00
AQUILEGIA (Columbine).		
Indispensable for the herbaceous border and rock-garden. Their various colored flowers are valuable for cutting and any form of floral arrangement.		
*CANADENSIS. Scarlet and yellow. 2 ft. May-June.	1.50	10.00
*CHRYSANTHA. Very graceful, soft yellow flowers. 2½ ft. May-June.	1.50	10.00

ORDER ACHILLEA THE PEARL, IT PAYS

ACHILLEA THE PEARL

AQUILEGIA—Continued.

	per doz.	per 100

*GIANT WHITE	1.50	10.00
*GIANT YELLOW	1.50	10.00

WELLER NURSERIES ORCHESTRA

Besides cultivating the soil, the Weller family believes in cultivating Harmony, the greatest power in any organization, and the symbol of the stability and growth of the Weller Nurseries Company.

FIELD OF HARDY CHRYSANTHEMUM

CHRYSANTHEMUM (Hardy October Rose).
There is probably nothing so valuable in the hardy plant line as the Outdoor Chrysanthemum. They grow well in any well-drained soil and are very valuable as cutflowers at a time when other cutflowers are scarce. We grow a splendid collection in the three prominent classes and our stock, being grown on well-drained fields, is the best that can be bought. The stock we are offering is strong fieldgrown clumps.

LARGE FLOWERING VARIETIES

	per doz.	per 100
AUTUMN GLOW. Rosy red.....	1.70	12.00
EVA. Fine bright pink, dwarf habit, early.....	1.70	12.00
EXCELSIOR. Bright orange-yellow	1.70	12.00
GOLDEN QUEEN. Bright golden yellow.....	1.70	12.00
INDIA, Copperish red	1.70	12.00
OLD HOMESTEAD. A buff pink. One of the best.....	1.70	12.00
SNOWCLAD. Pure white, one of the best.....	1.70	12.00

POMPON FLOWERING VARIETIES

FLORA. Bright crimson	1.70	12.00
FRED PEEL. Light lilac. Fine variety.....	1.70	12.00
METZL. Yellow with reddish center.....	1.70	12.00
PETITE LOUISE. Light pink, bronze center.....	1.70	12.00
PRESIDENT. Rich purple-crimson	1.70	12.00
QUEEN OF BULGARIA. Rose-crimson.....	1.70	12.00

DAMES VIOLET (See Hesperis).

DAY LILY (See Memerocalis).

DELPHINIUM (Hardy Larkspur)

The Delphinium is beyond question the Queen of all Blue Flowers. Their wonderful stateliness, and their loose, graceful shape of flowers, and fine blue colors, make them suitable for most any floral-work and indispensable to an up-to-date Florist. As cut flowers they bring a good price at any time of the season and especially when forced even as high as \$15.00 is realized for one hundred spikes, which may be cut from a very few plants.

For Forcing and Outdoor

Delphinium (Hardy Larkspur) has always been our specialty, growing nearly one-half million plants for this purpose. All our Delphinium for forcing have been transplanted twice to cause them to make as many fibrous roots as possible. (Our Famous Wonderful Root-System). As soon as the plants are well ripened in the fall, they are dug, heeled in flats in sand and left outside to freeze, after which they are put in cold-storage until shipment. This process is absolutely vital if good results are to be expected. For Forcing, No Plant or Bulb will Equal the Hardy Larkspur; For Profits, No Plant or Bulb Costs Less and Brings Bigger Returns.

*BELLADONNA. The most popular variety. The sky-blue flowers are freely borne on numerous branching stems throughout the summer.

	Doz.	100	1000
Strong 2 year old plants.....	\$1.50	\$10.00	\$90.00
Strong 1 year old plants.....	1.20	8.00	70.00

*BELLAMOSA. A deep blue form of Belladonna.

Strong 2 year old plants.....	1.50	10.00	90.00
Strong 1 year old plants.....	1.20	8.00	70.00

*ENGLISH HYBRIDS. A fine strain of imported hybrid seedlings, grown from seeds, especially collected from true Hybrids. Beautiful variety of colors. Our Hybrids grew seven feet tall last summer.

Strong 2 year old plants.....	1.50	10.00	90.00
Strong 1 year old plants.....	1.20	8.00	70.00

*GRANDIFLORA. (Chinese). A beautiful gentian blue variety of dwarf habit, very free flowering. Flowers similar to Belladonna. Very fine for cutting per doz. per 100

*GRANDIFLORA ALBA. A pure white variety of the above. Finest for cutting 1.50 10.00

RED. Unnamed.....	25.00	
WHITE. Unnamed.....	17.50	

PHLOX (Hardy, Strong, 1 Year Field Grown)

Our Phlox truly represent our famous slogan, "With That Wonderful Root System." They are one year transplanted on the best sandy loam land that we have, scientifically fertilized to give them a root system fully 12 inches long and a big bunch of them. The first summer after we shipped them, they make a big strong bush with approximately ten flowering spikes and flowers as large as half dollars. Why? Because we put the pep into them by our transplanting process. Two year old Phlox grown on the same land for two years do not have this vigor or pep, it has been taken out. They transplant badly, because they have made hard pinroots, just like wires which take very difficult and especially the first summer make a poor showing. PLANT ONE YEAR OLD PLANTS ONLY. IT'S LIKE BUYING A NEW AUTOMOBILE.

	per doz.	per 100
*ANNA COOK. Soft lilac pink. Fine variety. 30 in.....	1.50	9.00
B. COMTE. Brilliant rich French purple. 24 in.....	2.00	12.00

Remember that Perennials cost you nothing after they are once planted, and that they give you an abundance of cut flowers every year. Have you ever had anything in your Greenhouse that would yield a crop from year to year without having to resow, repropagate, rebuy and to repot several times in one year? Make the Perennials your Supply House and save money.

Watch the recommendations for the planting of Perennials in the trade-papers.

DO YOU KNOW VALERIANA? YOU SHOULD.

Weller's Gladioli FOR FORCING "Ours for flowers"

OUR SUPERB STOCK

As pioneers in Gladioli growing, and having been among the first to introduce "Gladioli for Forcing" we have undoubtedly gathered so much experience in producing "A Superior Kind of Bulb" that the quality of our stock need not be dwelled upon. Our hundreds of satisfied customers are our best testimonials. Every year, we have been able to improve our stock through added experience, so that we are confident that our bulbs of today are as near perfect as can be produced.

"Hints for Forcing"

Plant the bulbs 2 inches deep, 4 inches apart each way, if possible in ground benches; raised benches are all right, provided there is not too much underneath heat.

Be careful with manure; water and sunlight are more important than manure.

Grow them under carnation temperature.

Plant from January 15 to February 1st. Bulbs planted before January 15 show more blind stalks than those planted later.

It's not the largest bulb that forces best; by all means forcing stock should be fat and plump, 1½ in., (no use forcing flat bulbs).

Gladioli that we recommend for forcing are marked with (*).

All varieties are fine for outdoor planting and No. 2 bulbs will give excellent flowers.

Prices per 1000 unless otherwise noted.

	No. 1	No. 2
*America. Soft flesh pink, tinted lavender.....	\$18.00	\$14.00
Anna Eberius. Dark velvety purple.....	45.00	38.00

We have Campanula in all colors.		
Matricaria Capensis fl. pl. (Hardy Feverfew).....	1.50	10.00

ARE YOU BUYING OUR ROSES FOR FORCING? WHY NOT?

General Information about Perennials For Cut Flowers

VARIETIES

All varieties best suited for Cutflowers have been marked with an (*). No Florist should be without any of them, although it is possible that a certain class suits one better than the other. Varieties shown enclosed in rule border, are recommended for planting before others or to remind you that they should not be missed by any means.

BEFORE ORDERING

Before ordering, it is well to first study the requirements of your business; at which times of the summer the demand for cutflowers is the heaviest and when you have the smallest crop and variety of your own. The market for cutflowers at Decoration Day is unlimited, so that varieties blooming at that time are of most importance. The flowering time is given with each variety or species, which enables you to make your selections accurately. Further, the colors are given of each variety, so that if you want blue most of all, such varieties as Delphinium, Centaurea, Eupatorium, etc., may be selected without difficulty. We advise planting a general variety under most circumstances, which prevents a surplus crop at any one time, but protects you against shortages at all times.

FALL PLANTING AND WINTER PROTECTION

To obtain the largest crop of flowers the first year at the proper time, planting should be done in the fall. Early planting is advisable, so that the plants can become thoroughly established before winter. Most important in fall planting is, that the land is well drained, so that no excessive moisture can collect during the winter and early spring. Plant Perennials the same depth as they grew in the nursery and after planting, hill up the soil around the plants to about two inches, not packing down the hills at all. As soon as the ground is frozen and winter seems permanent, cover up rows with straw or corn-stalks, which should be taken off as soon as the danger of frost has passed, at the same time leveling down the hills from the plants.

SPRING PLANTING

Spring planting suits nearly all situations, except that there is seldom time enough to do the work properly. Perennials planted in the spring will not flower as profusely the first summer as those planted in the fall. Orders for spring delivery will be reserved until the proper time, but owing to the scarcity of some of the outstanding varieties, we advise that you place your order now to avoid disappointment later.

10 VARIETIES, our selection.....	1.50	10.00

OUR DAHLIAS ARE GOOD—TRY THEM.

Some PERENNIALS and BIENNIALS

Such as Mentioned Below, if Planted in
the Fall, Need Protection During
the Winter Months

ANEMONES

CAMPANULA (a biennial)

DIGITALIS (a biennial)

GEUM.

To protect these, throw branches on the rows and on top of these straw. If the covering on Campanula and Digitalis becomes packed in the spring, they will rot, therefore be sure there are plenty of branches under the straw to insure plenty of ventilation.

HOLLYHOCKS.

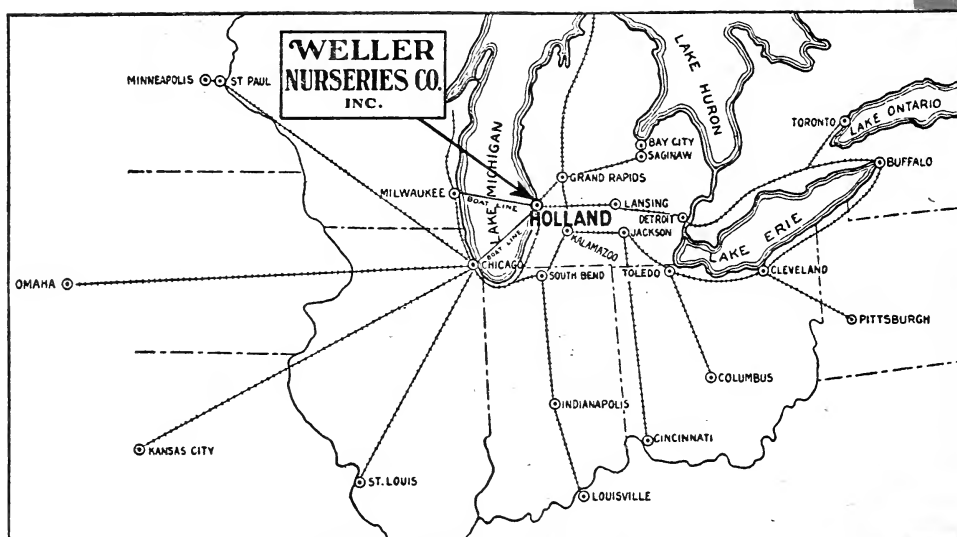

STOKESIA.

{ They must have "dry feet," so plant them on a spot where there is plenty of drainage.

CHRYSANTHEMUM. If received in the fall, they should be "heeled in" in sand and covered up with straw and planted out in the spring.

TRITOMA. Must be kept inside in sand.

REMEMBER. THE ABOVE ITEMS, planted in the spring, DO NOT need protection during the following winter, as they have established their roots thoroughly during the year.

"THE MOST IDEALLY LOCATED PERENNIAL NURSERY"
